

// NV[®] GREEN 15th ANNIVERSARY

LOW LAUNCH AND LOW SPIN

Company	ALDILA [®]
Product Type	WOOD
Series	NV [®]
Year	2018

The ALDILA[®] NV[®] celebrates its 15th anniversary and remains one of the most successful golf shafts in history. To commemorate this milestone achievement, we've created a 15th Anniversary Limited Edition NV[®] – based off of the original NV[®] Green and VS Proto Blue profiles. The NV[®] Green and Blue 15th Anniversary Limited Edition profiles feature ALDILA[®]'s NexGen Micro Laminate Technology[®] (MLT) that enhances performance and feel through the use of ultra-thin layers of premium grade materials that eliminates “dead zones” that can be caused by voids between layers of prepreg.

The ALDILA[®] NV[®] 15th Anniversary Green is a low torque, low launch-low spin shaft that features a constant taper design and a premium ion plated finish.

Technologies: NexGen Micro-Laminate Technology[®] (MLT), Ion Plating
